

LANDA

Agricultural parts center

YOUR HARVEST SPECIALIST

WEARING AND MAINTENANCE PARTS ALL BRANDS

www.landa-partscenter.com

Since 1983, Landa is doing his best to help harvesting professionals.

Our company offers a wide range of agricultural spare parts especially for Forage Harvester but also for Combine harvesters, Balers, Mowers and many others.

Our goal is to provide high-quality products, mainly manufactured in France, to our customers adapted to their machines and their budget in a short period of time. Landa supplies alternative parts, we provide parts respecting OEM specifications or even better quality.

To make sure we can deliver the best service to our customers, Landa owns 3 warehouses throughout France and has built strong partnerships all around the world. All the parts are in stock all along the year even out of season

Concerning our sales worldwide, we are currently working with more than 50 partners based on the 5 continents. Landa has created a team dedicated to the export sales to meet the customer expectations.

FORAGE HARVESTER

From grass to maize
harvest peacefully

FEEDING UNIT

- Feed rollers (upper and lower)
- Standard scrapers and with Tungsten
- Stainless steel bars
- etc ...

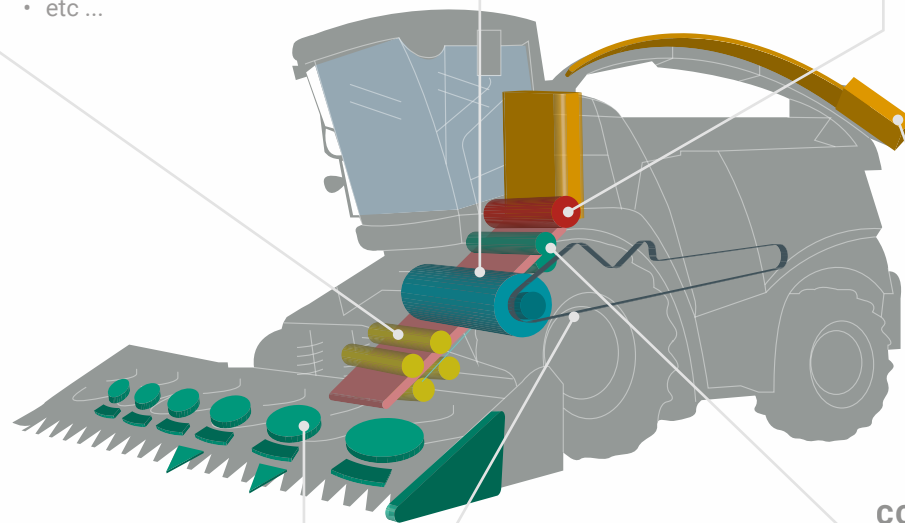

CUTTING PARTS

- « Tungsten laser process »
- Knives / Shearbar all crops
- Sharpening stones
- etc ...

DISCHARGE BLOWER PARTS

- Fan rotors
- Smooth or serrated paddles
- etc ...

WEAR PLATES

- Tower liners
- Transfert chute
- Spout wear plates
- etc ...

HARVESTING HEADER PARTS

- Extra hard blades
- Tungsten blades
- Drum rotors
- Wear plates
- Drive couplers
- Scrapers
- etc ...

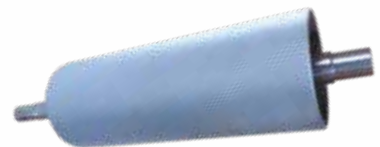

TRANSMISSION

- Belts
- Chains
- etc ...

CORN CRACKER ROLLERS

- Hardened « high frequency »
- Chrome plated rollers
- Straight tooth / Saw tooth
- etc ...

COMBINE HARVESTER

From the cutting system to the chopper

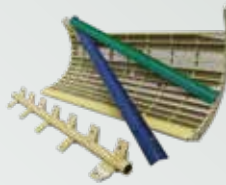

FRONT CONVEYOR

- Standard and reinforced chains
- Sprockets
- Slats / Slides
- etc ...

THRESHING SYSTEM

- Rasp bars
- Concaves all crops / Wire
- Rasp laths
- Separator panels / pulling straw panels
- etc ...

SEPARATOR SYSTEM

- Crankshafts
- Wooden bearings / Bearing units
- Shaker sieves
- etc ...

HARVESTING HEADER PARTS

- Cutting blades / Knife sections
- Knife heads / Belts
- Fingers / Reel tines
- Dividers / Sensors / Crop lifters
- etc ...

ELEVATOR SYSTEM

- Standard and reinforced
- Complete elevator chains
- Paddles any measures
- Grain and return auger
- etc ...

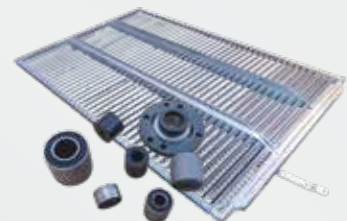

UNLOADING SYSTEM

- Knives and cunterknives all crops
- Spreader paddles
- etc ...

CLEANING SYSTEM

- Adjustable sieves all crops
- Silentblocs and bearing units
- Rubber plates
- etc ...

TRANSMISSION

- Belts
- Chains
- etc ...

 Standardized products

GRAIN HEADER

With Landa, improve your harvest performance.

RAPSEED EQUIPMENTS

- Electric and hydraulic rapeseed knives
- Several attachments
- Universal adapters / Adapters by brand
- etc ...

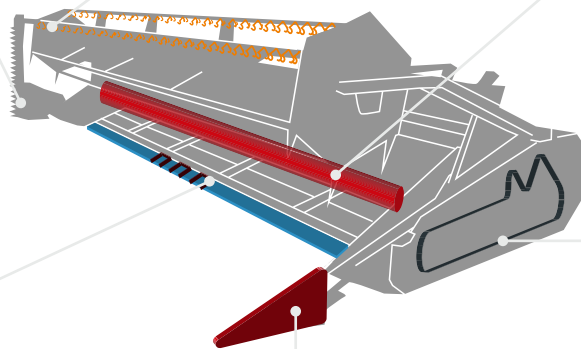

REEL

- Reel tines
- Plastic bushingsetc
- etc ...

FEED AUGER

- Auger fingers / Coupling supports
- Plastic guides / Springs
- etc ...

DRIVE ELEMENTS

- Gear boxes / Wobble forks / Pivoting arms
- Cutter bar drive belts
- Chains / Sprockets / Clutch discs
- Specific bearings
- etc ...

CUTTER BARS

- Cutter bars heads / Coupling balls
- Complete segmented cutter bars / Repair kits
- Knife sections (Any types)
- Knife fingers / Knife clips
- Guiding rollers and adjustment shims
- etc ...

HARVEST ACCESSORIES

- Dividers
- Crop lifters
- Skids / Sensors
- etc ...

 Standardized products

 Filtration  Bearings  Bolt

CORN HEADER

A rigorous selection of parts for a perfect harvest

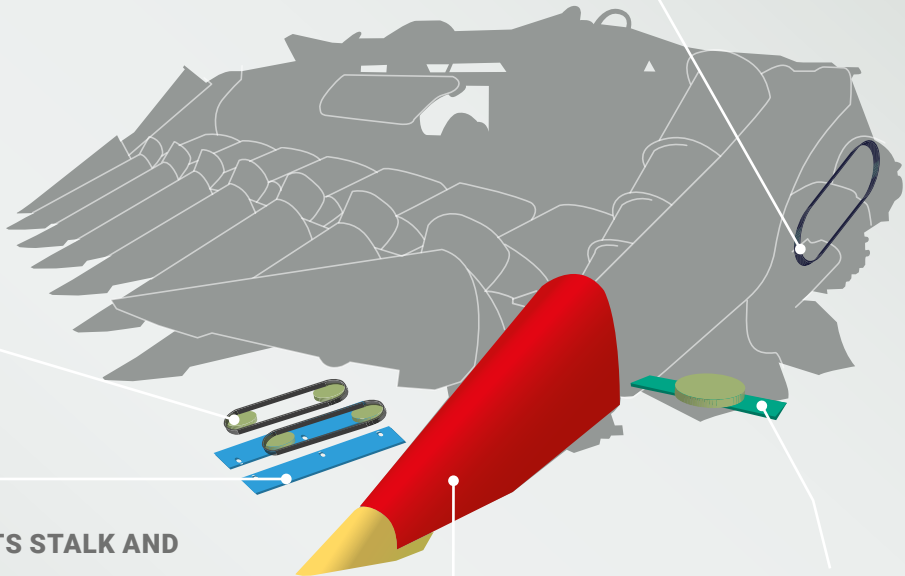

DRIVE ELEMENTS

- Chains / Sprockets / Clutch discs
- Row securities
- Specific bearings
- etc ...

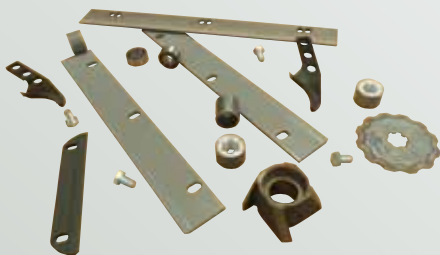

GUIDING PARTS

- Standard & Chrome Chains / Plates
- Driven and tensioner sprockets
- Specific bearings
- etc ...

SEPARATION PARTS STALK AND EAR CORN

- Knives and Tungsten carbide discs
- Plastic bushings
- Specific bearings
- etc ...

HARVEST ACCESSORIES

- Dividers
- etc ...

CHOPPER

- Induction hardening knives / Counterknives
- Knife holder plates
- Bushings and safety discs
- etc ...

MOWER CONDITIONNER

Get the right start to harvest your forages

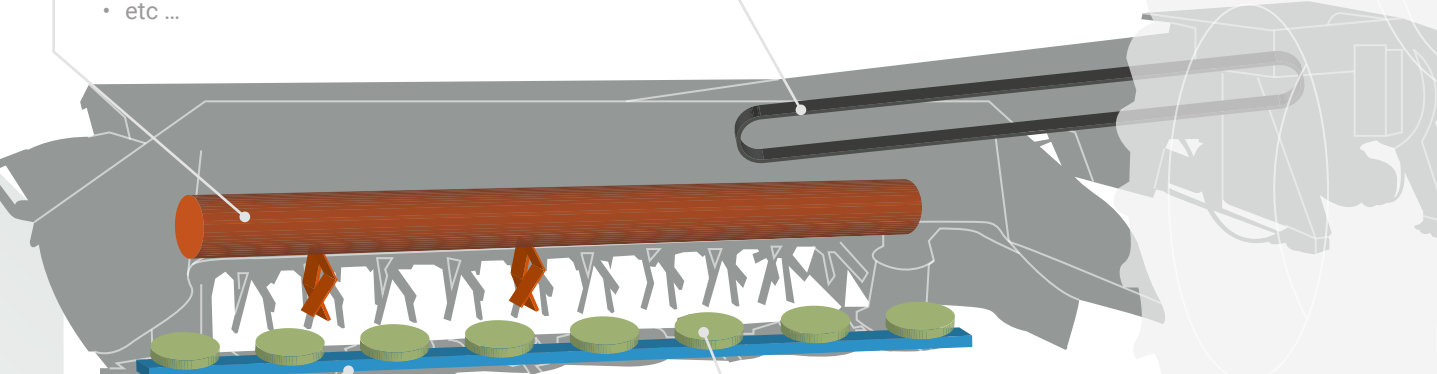

CONDITIONING SYSTEM

- Fingers
- Rings
- etc ...

TRANSMISSION

- Standard and reinforced belts
- Clutch discs
- etc ...

WEAR PLATES

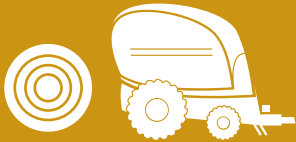

- Skid plates
- Stone guards
- etc ...

CUTTER BARS

- Mower discs
- Knives / Quick blade change
- etc ..

ROUND BALERS

With Landa,
Press with no worry

BALE CHAMBER

- Smooth or relief belts
- Staples / Stapling tools
- etc ...

PACKING SYSTEM BELTS

- Belts

DRIVE ELEMENT

- Standard and reinforced chains
- Sprockets
- Specific bearings
- Adjuster rollers
- etc ...

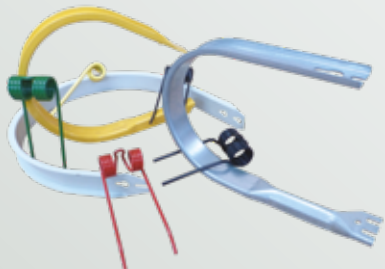

CUTTING PARTS

- Knives
- etc ...

PICK-UP PARTS

- Tines
- Guards
- Cams / Rollers
- etc ...

SQUARE BALERS

With Landa,
Press with no worry

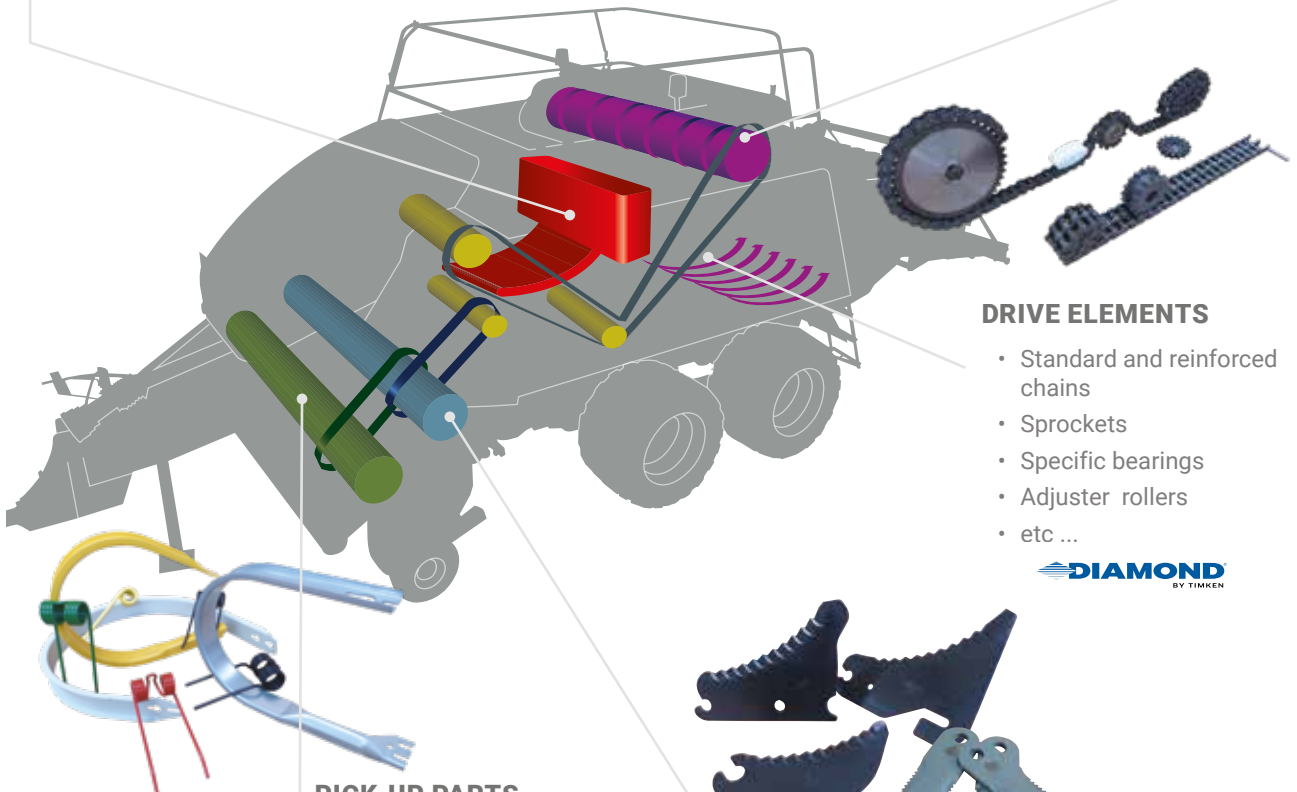

BALE CHAMBER

- Specific bearings and rollers
- Clutch springs
- Safety bolts / Clutch discs
- etc ...

KNOTTING SYSTEM

- Complete knotters
- Ejector arms / Hook knotters
- Sprockets / Cams / Twine retainers
- Needles / Twine guide rollers
- etc ...

DRIVE ELEMENTS

- Standard and reinforced chains
- Sprockets
- Specific bearings
- Adjuster rollers
- etc ...

PICK-UP PARTS

- Tines
- Guards
- Cams / Rollers
- etc ...

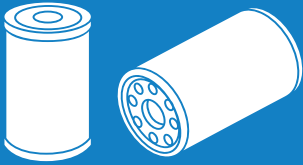

CUTTING PARTS

- Knives
- Knives chopper under arrow
- etc ...

 Standardized products

 Bearings 
 Bolt 

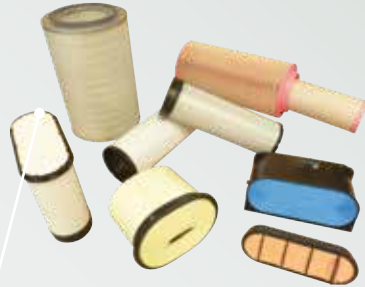

FILTRATION

Landa, the choice of a preserved warranty

FUEL FILTERS

It prevents particles or water contained in the diesel fuel from reaching the injection circuit. The filter extends its lifetime avoiding premature wear and overconsumption.

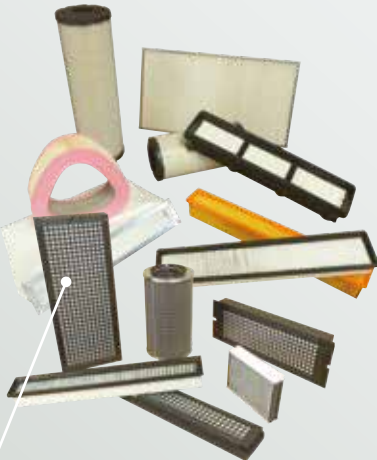

ENGINE AIR FILTER

The only filter elements in contact with the outside environment, such as a «lung» for your machine. They are designed to retain abrasive impurities which could damage your engine.

ENGINE OIL FILTERS

It ensures the purity of the engine oil reducing friction. It filters the metallic particles, dust and residues emitted by the combustion in order to avoid fouling of the engine.

CAB AIR FILTERS

Integrated into the ventilation / air conditioning circuit this filter mainly retains dust and pollens. LANDA also has a range of special filters for chemical treatments. These active carbon filters trap gases and vapors to protect your health.

UREA FILTERS (*ADBLUE)

For machines meeting the latest antipollution standards, we provide the urea filters (*AdBlue) for all brands.

HYDRAULIC FILTERS

Hydraulic filters prevent clogging of your circuit by removing all unwanted particles. They then ensure the reliability to extend the lifetime of pumps and motors.

OTHER FILTERS

The LANDA Filtration range also includes :

- Water filters
- Air dryer filters
- Fuel tank decanter filters
- etc...

*The fluid mark Adblue is given as an indication only
